Product picture

Sample taken from

Seller "MiniJones" on Shopee

The Consumer Product Safety Office has issued a notice to MiniJones to cease supply of the stroller.

During the testing of this sample, it was found that the product did not comply with the following requirements from EN 1888-1(2018) + A1 (2022): Child care articles – Wheeled child conveyances – Pushchairs and prams and EN 1888-2(2018) + A1(2022): Child care articles – Wheeled child conveyances – Part 2: Pushchairs for children above 15kg up to 22kg:

- The angle between the seat and backrest did not meet the minimum requirements.
- The restraint system and fasteners did not meet the requirements of the standard.
- The adjustable device of the canopy could form moving parts and cause shearing.
- The adjustable device of the leg rest could form moving parts and cause crushing.
- The locking mechanism did not meet the requirements of the standard.
- The inner foam of the bumper bar could be detached and form small parts.
- The plastic packaging provided could cause suffocation and did not have the appropriate warning labels to inform users to keep the packaging away from children.
- The stroller can still move despite the parking device being engaged.
- The stroller can tip over when placed on an inclined surface.

- The frame of the chassis of the stroller broke after passing through irregular surfaces repeatedly.
- Product information was not provided.

No report of incident or injury related to the use of this product has been received to date.

Consumers who have bought the product are advised to stop using it immediately.
