

Bugaboo International B.V. Recalls Bugaboo Giraffe Highchair

Bugaboo has issued a voluntary recall for the Bugaboo Giraffe Highchair for 6 months to 36 months old with baby set accessory, and from 36 months old up to 100kg without the baby set. The recall applies to model numbers 200001013, 200001001, 200001002, 200001005, and 200001007.

The recall has been initiated due to a safety concern where the screws connecting the legs to the frame may become loose and detach when a child is seated in the highchair. This poses a fall hazard.

Consumers who own the Bugaboo Giraffe highchair should immediately discontinue use of the highchair for safety reasons. To address this issue, affected consumers should contact Bugaboo to register their information so that a repair kit can be sent to them through the Bugaboo service [website](#).

For additional support, consumers can reach out to their local Bugaboo retailers [here](#).
